like they're the only one

INDICATION & IMPORTANT SAFETY INFORMATION for KLYGEFA™ (gefurulimab-gaks)

INDICATION

What is KLYGEFA?

KLYGEFA is a prescription medicine used to treat a disease called generalized myasthenia gravis (gMG) in adults who are anti-acetylcholine receptor (AChR) antibody positive.

It is not known if KLYGEFA is safe and effective in children.

IMPORTANT SAFETY INFORMATION

What is the most important information I should know about KLYGEFA?

KLYGEFA is a medicine that affects your immune system and may lower the ability of your immune system to fight infections.

- **KLYGEFA increases your chance of getting serious meningococcal infections that may quickly become life-threatening or cause death if not recognized and treated early.**

1. You must complete or update meningococcal vaccine(s) at least 2 weeks before your first dose of KLYGEFA.
2. If you have not completed your meningococcal vaccines and KLYGEFA must be started right away, you should receive the required vaccine(s) as soon as possible.
3. If you have not been vaccinated and KLYGEFA must be started right away, you should also receive antibiotics for as long as your healthcare provider tells you.
4. If you had a meningococcal vaccine in the past, you might need additional vaccines before starting KLYGEFA. Your healthcare provider will decide if you need additional meningococcal vaccines.
5. Meningococcal vaccines do not prevent all meningococcal infections. **Call your healthcare provider or get emergency medical care right away if you get any of these signs and symptoms of a meningococcal infection**: fever, fever with high heart rate, headache and fever, confusion, muscle aches with flu-like symptoms, fever and a rash, headache with nausea or vomiting, headache with a stiff neck or stiff back, or eyes sensitive to light.

Please see additional Important Safety Information throughout and see full Prescribing Information and Medication Guide, or visit www.KLYGEFA.com/PI for KLYGEFA, including Boxed WARNING regarding serious meningococcal infections.

AT ONESOURCE™, we're by your side

ADD ONESOURCE TO YOUR SMARTPHONE CONTACTS

1. Go to your camera on your mobile device.
2. Scan the QR code on the right.
3. The OneSource number, 1.888.765.4747, will be automatically added to your contact list so you'll recognize the caller.

GETTING TO KNOW ONESOURCE

OneSource is a free, personalized patient support program offered by Alexion. Whether you're newly diagnosed or have had your condition for years, our specialists will be by your side. We can help with access resources and vaccination support, answer questions about your treatment with KLYGEFA™ (gefurulimab-gaks), and connect you to community resources.

We're committed to helping you start and stay on track with your prescribed treatment.

WE SEE HOW EACH PATIENT'S NEEDS ARE UNIQUE, AND WE'RE HERE TO HELP WITH YOURS.

IMPORTANT SAFETY INFORMATION

Your healthcare provider will give you a Patient Safety Card about the risk of serious meningococcal infection. Carry it with you at all times during treatment and for 3 months after your last KLYGEFA dose. Your risk of meningococcal infection may continue for several weeks after your last dose of KLYGEFA. It is important to show this card to any healthcare provider who treats you. This will help them diagnose and treat you quickly.

KLYGEFA is only available through a program called the KLYGEFA Risk Evaluation and Mitigation Strategy (REMS). Before you can receive KLYGEFA, your healthcare provider must: enroll in the REMS program; counsel you about the risk of serious meningococcal infections; give you the **Patient Guide**, including information about the signs and symptoms of meningococcal infection; give you a **Patient Safety Card** about your risk of meningococcal infection; make sure that you are vaccinated against serious infections caused by meningococcal bacteria, and that you receive antibiotics if you need to start KLYGEFA right away and are not up to date on your vaccines.

Please see additional Important Safety Information throughout and see full Prescribing Information and Medication Guide, or visit www.KLYGEFA.com/PI for KLYGEFA, including Boxed WARNING regarding serious meningococcal infections.

ONESOURCE™ SUPPORT SERVICES

With our experience and resources, we're here to help you feel supported every step of the way. Here's an overview of the services we offer.

Education

When you have questions about your condition or treatment with KLYGEFA™ (gefurulimab-gaks), we'll work to find the answers.
Our team of specialists can provide you with:

- Educational materials about your condition
- Details about KLYGEFA
- Information about the treatment process
- A safety card about your meningococcal infection risk to carry with you and share with any doctor or nurse who treats you

Access and Vaccination Navigation

Health insurance can be complicated and may require specific steps. We're here to help make sense of it all. Our team of specialists can help with:

- Answering questions about your insurance coverage for KLYGEFA and working with your Specialty Pharmacy
- Information about resources or programs that may address financial concerns or gaps in coverage
- Vaccination support, including help with vaccination support and logistics

Community Connections

With OneSource by your side, you'll never have to go it alone. Connect with others in the rare disease community who understand your experience. We can share information about:

- In-person and online meetings and events specific to your condition
- Support and resources
- Advocacy groups
- A peer-to-peer program called **Peer Connects**

Ongoing Support

When life takes a turn, OneSource is ready to keep you on track. Our team can help:

- Guide you through changes in insurance or treatment details
- Navigate your treatment through life events, such as getting married, starting a new job, moving, or traveling
- Work with your healthcare provider and specialty pharmacy to ensure you keep receiving your medicine as prescribed

Please see additional Important Safety Information throughout and see full Prescribing Information and Medication Guide, or visit www.KLYGEFA.com/PI for KLYGEFA, including Boxed WARNING regarding serious meningococcal infections.

MEET YOUR SUPPORT TEAM

Our team is specially trained in rare diseases, and each person plays a unique role in helping to support your needs.

OneSource Support Specialist (OSS)

Throughout treatment, your OSS can help by:

- Providing information about your condition and KLYGEFA™ (gefurulimab-gaks)
- Helping with information and programs that may help address financial concerns or gaps in coverage
- Supporting with vaccination logistics and resources
- Helping you avoid treatment interruptions during insurance changes, travel plans, or other life events

Patient Education Manager (PEM)

Understanding your disease is important. Your local PEM will:

- Host local patient educational initiatives
- Conduct treatment education sessions for patients
- Meet you, in person or by phone, to provide education

Specialty Pharmacy

Your specialty pharmacy can help by:

- Working with your healthcare provider in getting insurance coverage for KLYGEFA
- Helping you enroll in the Alexion OneSource CoPay Program, if eligible
- Setting up regular shipments of medication
- Providing an FDA-cleared sharps disposal container for use after injections

IMPORTANT SAFETY INFORMATION

KLYGEFA may also increase the risk of other types of serious infections, including Streptococcus pneumoniae, Haemophilus influenzae, and Neisseria gonorrhoeae. Certain people may be at risk for serious infections with gonorrhea. Call your healthcare provider right away if you have new signs or symptoms of infection.

Do not use KLYGEFA if you have a serious meningococcal infection when you are starting KLYGEFA.

MORE WAYS TO COUNT ON ONESOURCE™

Here are some additional services we provide to help support you with KLYGEFA™ (gefurulimab-gaks).

Financial Assistance

OneSource may be able to help patients receive financial assistance for their Alexion treatment.

Learn about the Alexion OneSource CoPay Program

You can **pay as little as** **$0** **for KLYGEFA** if you have commercial insurance*

To be eligible, you must:

- Be signed up for patient services through OneSource
- Have commercial insurance
- Be prescribed KLYGEFA for an FDA-approved indication
- Reside in the United States or its territories

Not eligible for the Alexion OneSource CoPay Program?

If you have Medicare, Medicaid, or another federal- or state-funded insurance plan, we can connect you to third-party resources that may be able to help with financial assistance.

Addressing financial concerns of gaps in coverage

OneSource may also be able to help eligible patients avoid interruptions or delays in treatment when faced with short-term access challenges.

Talk to your healthcare provider or OneSource team for more information about financial assistance.

*Please refer to the full CoPay Terms and Conditions at www.AlexionOneSource.com/allpay for additional eligibility requirements.

Stay On Top of Your Vaccinations With OneSource

If you have been prescribed meningococcal vaccinations by your healthcare provider before starting treatment with a complement inhibitor, **OneSource may be able to help by offering*:**

- Support with locating a vaccination site
- Information on internal or external resources that may be available to cover vaccination costs
- Resources to help you keep track of your vaccinations
- A safety card about your meningococcal infection risk to carry with you and share with any doctor or nurse who treats you
- Helpful questions to ask your healthcare provider

*To be eligible, you must be signed up for patient services through OneSource and be currently prescribed a complement inhibitor therapy or be a potential candidate to start therapy with a complement inhibitor in the future. You must also be prescribed vaccinations by your healthcare provider.

Talk to your healthcare provider or OneSource team for more information about vaccination support.

Injection Support

It may take a little time to get used to injections. We're here to support you as you prepare. If you have any questions about self-injecting or KLYGEFA, please reach out to OneSource or your specialty pharmacy.

In the meantime, here are a few tips that may help:

- Ask questions: It's important that you're informed and prepared for this transition. So don't be afraid to ask questions
- Set routines: One way to remember your injection is to do it at the same time every treatment day
- Get help: It may be helpful for a caregiver to watch your first few self-injections so you can feel more confident
- Plan ahead: If you're traveling, pack your injection supplies and store your medication in your Travel Cooler (which can be obtained through your Alexion OneSource Support Specialist). If needed, call airlines and hotels ahead of time to see if they can refrigerate your medicine

IMPORTANT SAFETY INFORMATION

Before you use KLYGEFA, tell your healthcare provider about all of your medical conditions, including if you:

- have an infection or fever.
- are pregnant or plan to become pregnant. It is not known if KLYGEFA will harm your unborn baby.
- are breastfeeding or plan to breastfeed. It is not known if KLYGEFA passes into your breast milk. Talk to your healthcare provider about the best way to feed your baby if you use KLYGEFA.

IMPORTANT SAFETY INFORMATION

Tell your healthcare provider about all the vaccines you receive and medicines you take, including prescription and over-the-counter medicines, vitamins, and herbal supplements.

The most common side effect of KLYGEFA includes injection site reactions.

Please see additional Important Safety Information throughout and see full Prescribing Information and Medication Guide, or visit www.KLYGEFA.com/PI for KLYGEFA, including Boxed WARNING regarding serious meningococcal infections.

GETTING STARTED

For general information, you don't have to be enrolled—simply call 1.888.765.4747 to ask questions.

For personalized support, such as support with treatment access and vaccination, logistics, an enrollment form is required.

Not speaking English?

If English is not your preferred language, we will connect you through one of our interpreters to make sure you get the support you need.

AlexionOneSource.com

Your healthcare provider's office

By calling 1.888.765.4747

Your healthcare provider will fill out their section of the form and send a prescription for KLYGEFA™ ([gefurulimab-gaks]) to the specialty pharmacy.

NEXT STEPS

1. Once the form has been submitted, OneSource™ will reach out to you and your healthcare provider's office to confirm we have all the information we need.
2. The Specialty Pharmacy will review your benefits, including out-of-pocket costs. OneSource will provide vaccination support and information on available financial resources, when needed.
3. Your healthcare provider will seek prior authorization from your insurance (if applicable) and place the order for KLYGEFA.
4. Your Specialty Pharmacy will continue to work with you in setting up medication shipments.

IMPORTANT SAFETY INFORMATION

These are not all the possible side effects of KLYGEFA. For more information, ask your healthcare provider or pharmacist. Call your healthcare provider for medical advice about side effects. You may report side effects to FDA at 1-800-FDA-1088.

HOW ONESOURCE WORKS WITH YOUR HEALTHCARE TEAM

After you make a treatment plan with your healthcare provider, OneSource is here to provide personalized support along the way.

✓ Support with insurance information, vaccination, and access to treatment

We're here to help if you or your healthcare provider needs information on vaccination support, available financial resources, or injection support.

✓ Help avoid interruptions in treatment

Life happens. That's why we're here to work with your healthcare provider and specialty pharmacy to help you stay on track with treatment while traveling, moving, changing insurance, or experiencing other life events.

✓ Ongoing support throughout treatment

OneSource is by your side throughout your treatment journey. We're available to answer any questions, together with the specialty pharmacy, that you or your healthcare provider may have about treatment logistics and will help make sure you keep receiving your medicine as prescribed.

Information from OneSource is not intended to replace the medical advice of your healthcare provider. If you have questions about your specific treatment plan, please reach out to your healthcare provider.

IMPORTANT SAFETY INFORMATION

See the detailed Instructions for Use that comes with KLYGEFA for information on how to prepare and inject a dose of KLYGEFA and how to properly throw away (dispose of) used KLYGEFA autoinjectors. Take KLYGEFA exactly as prescribed by your healthcare provider.

Please see additional Important Safety Information throughout and see full Prescribing Information and Medication Guide, or visit www.KLYGEFA.com/PI for KLYGEFA, including Boxed WARNING regarding serious meningococcal infections.

FREQUENTLY ASKED QUESTIONS

When you have questions, we're here to help find the answers.

If I'm not enrolled in the program, can I still call OneSource™?

Yes. OneSource is available to answer questions and provide you with educational materials related to your condition or treatment with KLYGEFA™ (gefurulimab-gaks). Some services, such as contacting your healthcare provider or pharmacy, may require enrolling in the program.

I've just been diagnosed. How can I learn more about my condition?

Our team is specially trained on your condition. Call us and we can provide you with educational materials and other useful resources. Remember, information from our specialists does not replace the medical advice of your doctor.

Is there local support in my area that I can contact for more information?

Yes. A Patient Education Manager (PEM) is available to meet with you virtually or in person to help you learn about local educational sessions and events. Visit AlexionOneSource.com to find a PEM nearby.

Can I talk to other patients about their experience?

Yes. We can connect you with patients who are experiencing a similar healthcare journey through our phone-based **Peer Connects** Program. We also have patient events and other initiatives where you can connect with the greater community. Call OneSource or visit AlexionOneSource.com for more information.

What happens if my insurance or situation changes?

Your OneSource team can help you avoid interruptions in treatment when you experience changes in insurance coverage or other life events such as moving or starting a new job. Call us and we will work with you and your healthcare provider so that the transition goes smoothly.

What will my out-of-pocket costs be?

Your Specialty Pharmacy can help you understand your insurance coverage and out-of-pocket costs for your Alexion treatment. OneSource can provide information about financial support and resources, regardless of your insurance coverage.

Does OneSource provide any financial assistance?

The Alexion OneSource CoPay Program may help cover some out-of-pocket treatment costs for eligible patients. If you have Medicare, Medicaid, or another federal- or state-funded insurance plan or if you don't qualify for the CoPay Program, we can connect you to third-party resources that may be able to help with financial assistance. To learn more, call us or visit AlexionOneSource.com.

What's next after submitting the form?

OneSource will call you within a few business days. In the meantime, if you have any questions, please call us at 1.888.765.4747. Your specialty pharmacy may also be able to assist you with any questions.

Please see additional Important Safety Information throughout and see full Prescribing Information and Medication Guide, or visit www.KLYGEFA.com/PI for KLYGEFA, including Boxed WARNING regarding serious meningococcal infections.

AT ONESOURCE™,
we're by your side

Whether you've just been diagnosed or have had your condition for years, we have information and resources to help you navigate life with a rare disease. OneSource is a free patient support program offered by Alexion designed to support your specific needs throughout treatment.
