

Alexion OneSource™ Inpatient Support Program Terms & Conditions

The Alexion OneSource Inpatient Support Program (“Program”) is a voluntary support program offered by Alexion Pharmaceuticals, Inc. (“Alexion”) to help patients who have an urgent medical need to initiate ULTOMIRIS® (ravulizumab-cwvz) (“Product”) in an inpatient setting. The Program provides up to three dispenses of Product free of charge to eligible patients. The Program does not assist with any infusion related costs.

All patients, healthcare providers, healthcare settings, and dispensers who participate in the Program (collectively, “Users”) must accept and abide by these terms and conditions (the “Terms”).

Eligibility: Patients are eligible for the Program if they meet ALL the following criteria:

- Are enrolled in OneSource, a personalized patient support program offered by Alexion
- Reside and receive treatment in the United States or its territories
- Have a prescription for the Product and be an adult with anti-aquaporin-4 (AQP4) antibody-positive neuromyelitis optica spectrum disorder (NMOSD)
- Have a medically urgent need to initiate Product in an inpatient setting, as determined by a healthcare provider
- Have commercial insurance and are not beneficiaries or recipients of any federal, state, or government-funded healthcare program, such as Medicaid, Medicare (including Medicare Part D), Medicare Advantage Plans, Medigap, Veterans Affairs, Department of Defense or TRICARE, or other federal or state programs (including any state prescription drug assistance programs)
- Are not taking any C5-inhibitor therapies at the time of Program initiation
- To remain eligible to receive free product through the Program following discharge to an outpatient setting, Users must initiate any procedures required by the payer (e.g., request prior authorization) and must be awaiting a final payer coverage decision

Participation Rules: To enroll in the Program, Users must provide documentation demonstrating eligibility and any other information requested by OneSource and update OneSource of any changes in insurance coverage (e.g., approval of a prior authorization) and/or expected site of care transitions. Users are responsible for complying with any and all obligations or requirements set forth by their insurer(s). Users may not seek or obtain coverage or reimbursement for the free Product provided through the Program, directly or indirectly, from any other party, including from the patient, third-party payer, or any government healthcare program. Program Product may not be sold, resold, traded, distributed for sale, or returned for credit.

Additional Terms and Disclosures: The Program is not a health insurance or a benefit plan, nor does it obligate the prescription, use, or recommendation of any specific medication, healthcare provider, or healthcare setting. Participation in the Program is not conditioned on any past, present, or future purchase of the Product or any other Alexion product. This is a voluntary program. Patients may choose not to enroll in the Program and may still receive the Product. Patients may participate in OneSource without participating in the Program. After enrolling in the Program, patients may opt out at any time by contacting OneSource. Alexion reserves the right to rescind, revoke, or amend the Program and these Terms without notice. Alexion further reserves the right to terminate any User’s participation in the Program if Alexion determines in its sole discretion that they have not complied with any of these Terms.

Additional Healthcare Provider, Healthcare Setting, and Dispenser Terms and Disclosures:

- Participating healthcare providers, healthcare settings, and dispensers each must hold a valid license under applicable laws.
- Both the prescriber and the dispenser must be REMS-certified.
- Program Product must first be administered in an inpatient setting to eligible patients who have an urgent medical need to initiate the Product pursuant to a valid prescription from a licensed provider and in compliance with REMS requirements.
- After the initial loading dose, the Program can provide up to two additional dispenses of Product free of charge to eligible patients. Accordingly, an individual patient may receive no more than three dispenses of Product through the Program.
- Upon completion of Program enrollment (which consists of patient enrollment in OneSource, OneSource verifying eligibility, and prescribers and pharmacies completing the Inpatient Support Program Prescriber & Pharmacy Form), participating healthcare settings will be eligible to order Product through the Program.
- Participating healthcare settings must have adequate controls to track utilization of Program Product and must establish adequate controls to ensure that Program Product is appropriately segregated, dispensed, and tracked to ensure compliance with these Terms. For each order, the participating healthcare setting certifies and acknowledges the following:
 - It maintains adequate controls to track utilization of Program Product, including maintaining Product separate from any commercially purchased units of ULTOMIRIS and tracking the number of units of Program Product dispensed since last order and the associated dispense date/month;
 - The participating patient initiated Program Product in an inpatient setting, and no patient has received more than three dispenses of Program Product;
 - It has not and will not seek reimbursement for any Program Product; and
 - It has or will appropriately document that the Product was free in any reimbursement request
- Healthcare settings understand that Program Product is commercially labeled and not labeled as samples or free drug but that they must treat the Program Product as free product in accordance with these Terms.
- Program participant names and the free Product disbursements may be reported as required by applicable laws. Once reported, this information may be made publicly available.
